

MONO-RAIL TYPE: Rope Falls: 4/1

© Lifting speed, traversing speed are based on a power supply frequency of 50HZ
 © Standard Voltage: 380V, 415V
 © Standard FEM level of Lifting Motor is 40%ED + 60%ED can be done by requests.
 © Inventor Control can be installed to all model by requests. Inventor Control is more suggested for the hoists over 25 Tons.
